Cobrix
Get paid on time, without chasing anyone

United States. Everything you need to recommend Cobrix with confidence.

What Cobrix is

Cobrix is online software for small businesses, freelancers and individuals. It sends friendly payment reminders by email, shows each customer what they owe and gives the owner a dashboard of who paid and who is running late. For businesses that work by appointment, Cobrix Agenda adds online booking with automatic customer reminders.

WHO IT IS FOR

- Service businesses, studios, schools, repair shops and agencies that bill on a due date
- Salons, barbershops, clinics, pet groomers and independent professionals who take appointments (Cobrix Agenda)
- Individuals who want to organize their own bills (Personal plan)

HOW IT WORKS

1. Add your customers and what they owe, or open your booking page.
2. Cobrix sends the reminders at the right moment.
3. Your dashboard shows who paid and who is still pending.

Your commission

25% of the net amount of the first charge (the price minus the fees and taxes Hotmart deducts) of each customer who arrives through your link, with no recurring commission. It is generated when the first payment is charged, that is, after the 7-day trial and only if the customer continues. You see the exact amount in your Hotmart dashboard. Last-click attribution with no expiry.

What is new in the Personal plan

The Personal plan has grown. These features are already in the app and make good content.

Log a purchase with a photo

A photo of the receipt or its QR code fills in amount, date, store and category. The user reviews and saves; the reading is automatic and can make mistakes.

Income and balance

What comes in, the account balance, the month's result and what is left over.

30, 60 and 90-day forecast

Upcoming bills, installments, card statements and logged income, with a warning before the balance goes negative.

Cards and statements

Limit, closing and due date for each card, with installments on the right statement.

Spending radar

Shows subscriptions and small purchases that repeat, and what they cost per month and per year.

Loans

Track installments and balance, fixed payment or SAC.

Investments

Manual log of what is invested, followed in one place.

Shared account

An invite link lets another person log spending in the same account.

READY TO POST: LOG WITH A PHOTO

Writing down every expense is what makes most people give up. In Cobrix Personal you snap the receipt, check what was filled in and save. 7-day free trial: [YOUR LINK]. Affiliate link.

Stores and repair shops have their own product, Cobrix Operations, including a one-time license with its own kit: cobrix.site/kit-afiliados.

Plans and prices

Prices in US dollars before sales tax, which is added at checkout where it applies. Monthly, quarterly (−10%) or yearly (−20%). 7-day free trial. Cancel anytime.
